Location:	Poland

Additional Information:

For Sale: 1993 Mercedes-Benz S-Class 600 Coupé / 600 SEC — C140 V12

For sale is a 1993 Mercedes-Benz S-Class 600 Coupé, model C140, also known as the 600 SEC. It is a two-door coupé based on the W140-generation S-Class.

The car is equipped with a naturally aspirated 6.0-litre V12 petrol engine, automatic transmission and rear-wheel drive. This model was designed for high driving comfort, stability at motorway speeds and very good cabin insulation.

The car was imported from Spain and is being sold as an unfinished project. I am selling it due to lack of time to complete the work.

Recent mechanical and service work includes:

* complete brake system replacement,
* new brake discs, pads, calipers and brake lines,
* brake fluid replacement,
* new front shock absorbers,
* replacement of many front suspension components,
* repair of the automatic transmission.

The transmission work included repair of the reverse gear, replacement of clutch/friction plates, transmission band, filter and transmission oil.

Current condition and items requiring attention:

* air conditioning does not work,
* parking sensors work — the guide antennas extend correctly,
* right door soft-close does not always work properly,
* boot lid soft-close works correctly,
* left door soft-close works correctly,
* window closing function works,
* right seat belt presenter does not always work correctly,
* some interior elements require refreshing or repair.

The car has a valid technical inspection in Poland and valid insurance. If needed, I can assist with arranging temporary transit registration plates and insurance at the local registration office.

This Mercedes-Benz 600 Coupé C140 should be treated as a solid base for further technical and cosmetic completion. The main work on the brake system, part of the front suspension and the automatic transmission has already been completed. The remaining work mainly concerns comfort equipment and interior details.

A suitable car for someone looking for a large, comfortable V12 coupé with classic construction and a clear luxury-car character, while being aware that this example still requires further work.
